

GEMELS&ESG: THE NEXT GREEN INITIATIVE IN SERIATE

di Editorial Staff

Monday 21 Mar 2022 7:00

The Gemels ESG initiative will take place, this time, at the Oasi Verde park in Seriate, a beautiful natural area, which deserves to be enhanced and safeguarded.

"With the support of the City of Seriate, on Saturday 2nd April we will be cleaning up the Oasi Verde. Unfortunately, many areas of the park are not respected, you can realize it just by taking a walk or a bike ride. We are happy and proud to make our small contribution to the environment and, above all, to create a sustainable culture, raising adults and children awareness of these important issues. It doesn't take much to make a difference, we want to change the world starting also from here!"

Considering the enthusiasm that we have seen among staff and their families in the previous events, this time the project is open to anyone who wants to take part and spend an afternoon safeguarding our green areas.

For organisational reasons, the enrolment ends on Friday 25th March. You can send your name and surname to savetheworld@gemels.it. Further details will be sent to all subscribers later.
